CONNECTCARE

Direct Messaging to securely exchange patient documents and information — ALL Care Providers, Any Time, Affordably.

Healthcare Challenges

- Disconnected Continuum of Care
- Colliding and exploding data requirements in Healthcare
- Health Information Exchange implementation pressures (HIE)
- Connecting Acute, Ambulatory & Extended Care Provider Patient Data
- Efficient Transitions of Care
- New governance evolving to support Continuum of Care needs & Meaningful Use requirements (Stage one and two)
- Sharing of electronic Patient information easily – Connecting Care Communities (Continuum of Care)
- Patients have access to their information anywhere / anytime –engaging patients and families
- Enabling Actionable Healthcare Data
- Need intelligent information and fast
- Managing Cost – Maintaining reimbursements
- Standards-based document format requirements (XDS, CCD, CDA's, etc.)
